

My family listens daily to K-Love radio station on 89.1 here in Phoenix. This radio station offers positive, encouraging music and Christian messages that we could not live without. Our family doesn't want to listen to secular music and commercials and K-Love is a safe haven for us. K-Love is a Christian outreach to our community, sharing the love of Christ and community events that all are welcome to come. I urge you to please not allow K-Love to be displaced by an LPFM station which would broadcast other programming and take away our K-Love signal. Thank you for your consideration.
